## ABOUT ME

---

I am a dedicated and organized individual, always eager to take on new challenges and learn about new technologies.

## PROJECTS

---

### Twitter-Clone

Designed and developed a Twitter clone application with authentication, user registration, and follow/unfollow features using ReactJS and Node.js.

Link: <https://twitter-clone-05wx.onrender.com>

### Game-Hub

Built Game-Hub website, a mini version of RAWG, a popular video game discovery platform using React-Js.

Link: [game-hub-git-main-aniketratan27.vercel.app](https://game-hub-git-main-aniketratan27.vercel.app)

### Chat-Application

Created a simple chat application where two or more users can chat. Using NodeJs and ReactJs
